**PROJECT INFORMATION**

Project Name: Sabine Lake East Inshore Artificial Reef Site Location Planning  
 Date: June 1, 2012  
 Project Manager: [Name]  
 Project Sponsor: [Name]  
 Project Budget: [Amount]  
 Project Status: [Status]

**PROJECT OBJECTIVES**

The purpose of this project is to identify suitable areas for the placement of artificial reefs in the Sabine Lake East area. The project will involve a series of steps, including data collection, analysis, and site selection. The final goal is to establish a network of artificial reefs that will enhance the ecological health of the area and provide a habitat for various species of fish and shellfish.

**PROJECT SCOPE**

The project will focus on the Sabine Lake East area, which is located in the southeast corner of Louisiana. The area is characterized by its shallow waters and extensive marshland. The project will involve a detailed survey of the area, including the collection of data on water depth, substrate type, and the presence of various species of fish and shellfish. This data will be used to identify suitable areas for the placement of artificial reefs.

**PROJECT DELIVERABLES**

The project will produce a series of deliverables, including a map of the study area, a report on the findings of the survey, and a list of recommended sites for the placement of artificial reefs. These deliverables will be used to inform the decision-making process for the establishment of the artificial reef network.

**PROJECT TEAM**

The project team consists of several individuals, including the Project Manager, Project Sponsor, and various staff members. The team will work together to ensure the successful completion of the project.

**PROJECT CONTACT INFORMATION**

For more information about this project, please contact the Project Manager at [Phone Number] or [Email Address].

**PROJECT FUNDING**

The project is funded by the Louisiana Department of Wildlife and Fisheries. The funding will be used to cover the costs of the survey, data collection, and site selection.
